

**REMIND UK NON-DRUG TRIALS: 2014-2024**  
(formerly known as RICE – The Research Institute for the Care of Older People)

2014 RICE/14/02/GERAS Addendum	Addendum to Lilly GERAS – Observational study of resource use and cost of Alzheimer’s disease in Europe
2014 RICE/14/03/MnemonicAD	Mnemonic Neglect in People Affected with Mild Alzheimer’s disease: Replicating and Extending Findings From Experimental Social Psychology
2014 RICE/14/04/IDEAL	Improving the experience of dementia and enhancing active life: living well with dementia
2015 RICE/15/01/PromptingAD	Exploring the feasibility of a client-centred electronic prompting tool for supporting everyday activities in individuals with mild to moderate dementia.
2015 RICE/15/07/LIVDEMeval	Small pilot study to trial LIV-DEM post-diagnostic support groups at RICE
2016 RICE/16/04/AD Genetics EOAD	Alzheimer’s Disease Genetics: Detecting Susceptibility Genes for Early-Onset Alzheimer’s Disease
2016 RICE/16/06/MERCK	Prospective Non-interventional Study of Patients with Mild to Moderate Alzheimer’s disease and their Caregivers in Four European Countries.
2016 RICE/16/09/AD Genetics LOAD	Alzheimer’s Disease Genetics: Detecting Susceptibility Genes for Late-Onset Alzheimer’s Disease
2018 RICE/18/01/DVP	The dementia volunteer project: an evaluation. A mixed-methods investigation into the effectiveness of volunteers for hospital in-patients with dementia.
2018 RICE/18/02/IDEAL2	The IDEAL-2 study: Improving the experience of dementia and enhancing active life: a longitudinal perspective on living well with dementia
2018 RICE/18/05/PrAISED2	A multi-centre, pragmatic, parallel-group, randomised controlled trial of a programme to promote activity and independence, and prevent falls, for people with early dementia and mild cognitive impairment
2018 RICE/18/06/HIND24	Hypertension in Dementia – 24 hour BP (HIND24)
2018 RICE/18/08/DLBGenetics	DLB Genetics
2021 RICE/21/05/PRIDE	RE-AIM study of the PRIDE self-management app (PRIDE-app)
2021 RICE/21/06/InsideAD	Inside AD
2021 SIPA-2	SIPA-2 explored medicines management in people with sensory impairment in collaboration with the University of Strathclyde from 2021-2023
2021 AFRI-C	Testing whether air filters can prevent winter respiratory infections (including COVID-19) in care homes

2022 RICE/22/01/ExerciseSnacking	Exercise Snacking for Falls and Memory Clinic Inpatients
2023 RICE/23/01/MySmile	Mysmile is a study investigating whether improving oral health and reducing gum disease can slow memory loss
2023 RICE/23/03/CareCoach	CareCoach WP3 - A feasibility trial to assess the design and deliverability of a multi-centre randomised controlled trial of the CareCoach package, part of the CareCoach programme: adapting and testing an intervention for carers of people with dementia
2023 RICE/23/04/MAINTAIN	An intervention to maintain independence in People living With Dementia, living in their own homes, who have already fallen: a multi-centre, two-arm pilot cluster randomised controlled trial
2024 RICE/24/02/iACT4CARERS	A clinical and cost effectiveness RCT of iACT4CARERS

RICE/23/01/MySmile 2023	progression of cognitive impairment associated with Alzheimer's disease
RICE/23/03/CareCoach 2023	CareCoach WP3 - A feasibility trial to assess the design and deliverability of a multi-centre randomised controlled trial of the CareCoach package, part of the CareCoach programme: adapting and testing an intervention for carers of people with dementia
RICE/23/04/MAINTAIN 2024	An intervention to maintain independence in People living With Dementia, living in their own homes, who have already fallen: a multi-centre, two-arm pilot cluster randomised controlled trial
RICE/24/02/iACT4CARERS	A clinical and cost effectiveness RCT of iACT4CARERS
